MOMENTUM SOLUTIONS PARTNERS WITH EVELIN E. MONTES TO EXPAND COMMUNICATIONS SERVICES TO INCLUDE EXECUTIVE & LEADERSHIP COACHING

Coaching Enhances the Capacity of Thought Leaders and Social Impact Entrepreneurs

Los Angeles, CA (May 5, 2016) -- Momentum Solutions Team, LLC, a communications firm serving nonprofit agencies, foundations and social impact businesses, expands services to include coaching. Executive coach and strategist Evelin E. Montes will bring to the Momentum Solutions Team her 15-year community organizing and leadership development background rooted in the MacArthur Park/Westlake area.

“I’m excited to work with a team that values diversity, thought leadership and applies a coaching approach to their projects. Coaching is the framework that allows me to support clients as they take risks” says Montes. “When a person taps into the benefits of coaching, the magic happens--their intuition awakens and they identify their higher purpose. It's a privilege to do this work. I get much joy witnessing people step into their true selves.”

Montes is a Certified Professional Coach, serves as a senior advisor on capacity building initiatives for the Liberty Hill Foundation, alumni of The Funders’ Network PLACES Fellows (Professionals Learning About Community, Equity, and Smart Growth), and an active volunteer with the California Conference for Equality and Justice (CCEJ). Montes has navigated the nonprofit sector for the past 15 years having served as a co-director and executive director; she knows firsthand the expectation to lead successfully, as well as the challenge of not having someone to go to with questions.

"Nonprofit leadership is challenging, and can be lonely. Working with a coach can provide a leader peripheral vision and informed, collegial support in navigating the often complex landscape of organizational development." Says Claire Peeps, Executive Director, The Durfee Foundation.

In the last decade coaching has become one of the main approaches that business and nonprofits have relied on to motivate and empower their teams. The Momentum Solutions Coaching Team works with leaders and executives to identify clear goals, deconstruct fears and barriers and help co-design strategies that build compelling and passionate leadership.

“The value of coaching is being recognized in the workplace as there is a growing field of executive & leadership coaching that is becoming a necessary tool to aid nonprofits, businesses and philanthropy,” said David Kietzman, managing partner at Momentum

Solutions. “Coaching is a powerful tool for professional development, especially for leaders who naturally give of themselves and have a difficult time balancing healthy boundaries.”

About Momentum Solutions Team

Our vision is to strengthen communities through communications. Momentum Solutions, co-founded by social entrepreneur David Andrés Kietzman and public relations specialist Liza Sacilioc, is a team of professionals who understand that the root of success begins with a communications strategy delivered with words that connect with your audience. We understand that businesses, thought leaders and organizations are often impaired by time, shortage of human resources and financial constraints. We're here as a solution to anchor into your organization's mission, vision and goals and make sure your message is clear and reaching the people that matter most to your organization. We're on your team.
